

## PROVISIONAL TIMETABLE

	<b>Sunday 9 June Aula Magna</b>	<b>Chemistry Department "G. Ciamician" – Via Selmi, 2</b>
<b>12:00</b>	<i>Registration</i>	
<b>14:00</b>	Welcome address	
<b>14:30</b>	Sally Price, Univ. College London, UK	From computational crystal structure prediction to the targeted crystallisation of predicted polymorphs NEW
<b>15:00</b>	Geoff Zhang, ABBVIE, USA	Dissolution of Copovidone-based Amorphous Solid Dispersions: Limit of Congruency (LoC) and its Dependence on pH of the Environment
<b>15:30</b>	Susan Reutzel, LILLY, USA	Inconvenient Truths about Solid Form Landscapes
<b>16:00</b>	Christer Aakeroy, Kansas State Univ, USA	Co-crystal synthesis (and a few applications): Fact, fancy, and great expectations
<b>16:30</b>	<i>Coffee break</i>	
<b>17:00</b>	Nair Rodríguez-Hornedo, Univ. of Michigan, USA	How not to be wrong about cocrystals
<b>17:30</b>	Mike Zaworotko, Univ. of Limerick, Ireland	Stimuli responsive crystals
<b>18:00</b>	Silvia Cuffini, UniFeSP, Brasil	Cocrystals and Eutectic compounds of Nevirapine
<b>18:30</b>	Pirmin Hidber, La Roche, Switzerland	Title to be provided
<b>19:00</b>	<i>Wine and cheese party</i>	
	<b>Monday 10 June Aemilia Hotel</b>	<b>Aemilia Hotel</b>
<b>9:00</b>	C. Malla Reddy, IISER, India	Mechanical properties of APIs in general but not fully in the context of different forms
<b>9:30</b>	Ana Kwokal / Neil George, Syngenta, UK	Specificity of agrochemical industry in solid state chemistry
<b>10:00</b>	Philippe Ochsenbein, Sanofi, France	Structural Investigations of the SGLT-2 Inhibitor Sotagliflozin Polymorph Form 2
<b>10:30</b>	<i>Coffee break</i>	
<b>11:00</b>	Aurora Cruz Cabeza, Univ. of Manchester, UK	Lessons learnt from the Polymorphism and Crystallisation Behaviour of p-Aminobenzoic Acid
<b>11:30</b>	Len MacGillivray, the Univ. of Iowa, USA	Pharmaceutical Cocrystals: Synthons and Reactivity
<b>12:00</b>	Amy Robertson, Astra Zeneca, UK	From Crystal Structures to New Medicines
<b>12:30</b>	Jonas Baltrusaitis Lehigh Univ., USA	In search of sustainable nutrient management solutions for the planet: from labile nitrogen to localized phosphorus
<b>13:00</b>	<i>Lunch</i>	
<b>14:30</b>	Dario Braga, Univ. of Bologna, Italy	From bench to market to law court and return
<b>15:00</b>	Ilaria Goss, EPO, Germany	Title to be provided
<b>15:30</b>	Michelle O'Brien, The Marbury Law Group, USA	Patenting Crystal Forms
<b>16:00</b>	<i>Coffee break</i>	
<b>16:30</b>	Gold sponsor presentations	Gold sponsor presentations
<b>17:00</b>	Flash Presentations and Poster session	Flash Presentations and Poster session

## PROVISIONAL TIMETABLE

	Tuesday 11 June Aemilia Hotel	Aemilia Hotel
8:30	Gustavo Santiso-Quiñones Crystallise, Switzerland	Non standard crystallization methods of API
9:00	Kevin Back, Pfizer, UK	Structural informatics and solid form selection
9:30	Doris Braun, Univ. Innsbruck, Austria	Understanding the intriguing solid-state phenomena of Dapsone polymorphs and solvates
10:00	Bučar Krešo, Univ. College London, UK	Taste-masking of medicines for children through crystal engineering
10:30	<i>Coffee break</i>	
11:00	Giuseppe Viscomi. Alfasigma, Italy	Rifaximine hydrates: a never ending story
11:30	Dr. Martin Viertelhaus, BASF, Germany	Co-Crystals of Agrochemicals – New Properties for New Formulations
12:00	Vania André, Univ. Lisboa, Portugal	Bio-inspired metal-organic frameworks as a way to boost drugs properties and activity
12:30	Enrico Modena, PolyCrystalLine, Italy	Solid state properties in drug discovery: when it really matters
13:00	<i>Lunch</i>	
14:30	Yves H. Geerts, Univ. Libre de Bruxelles, Belgium	Polymorphism and external constrains
15:00	Matteo Daldosso, Aptuit an Evotec Company, Italy	A Bridge between Drug Substance and Drug Product: The Solid State Matters
15:30	Jon Steed, Univ. of Durham, UK	Supramolecular Gels: Control and Pharmaceutical Application
16:00	Luc Aerts, UCB Pharma, Belgium	Crystal Structure Prediction as part of Pharmaceutical Development
16:30	Dario Braga, Univ of Bologna, Italy	Concluding remarks “what next?” and Poster Prize
17:00	Farewell drink
